Re: CYYC Approaches Missing in FDPPro

We recently received ASRS reports describing a safety concern that may involve your area of operational responsibility. We do not have sufficient details to assess either the factual accuracy or possible gravity of the report. It is our policy to relay the reported information to the appropriate authority for evaluation and any necessary follow-up. We feel you should be aware of the enclosed deidentified report.

To properly assess the usefulness of our alert message service, we would appreciate it if you would take the time to give us your feedback on the value of the information that we have provided. Please contact Dr. Becky Hooey at (408) 541-2854 or email at becky.l.hooey@nasa.gov.

NARRATIVE 1

FDFPro is missing all the RNAV Y charts in YYC for all runways in the database. The FMGC has all of the RNAV Y approaches for the runways. The RNAV Y approaches in YYC are RNP. I am not sure if FDFPro should have them or they need to be removed from the FMGC but I do feel the databases should match.

SYNOPSIS

Air carrier Captain reported an EFB is missing multiple approach procedures for the CYYC airport, yet those approaches are listed in the aircraft database and available for use.
